

Welcome to Endeavour Sports High School.

At Endeavour we believe in....

Valuing individual potential – Achieving personal best.

In a nutshell this means that we value every young person who comes to the school for the potential they have. We are proud to be a school that welcomes students with varying interests, varying talents and varying backgrounds. We are also a school that believes in each student working towards and achieving their personal best: in learning, in sport, in our community and in themselves.

We also believe that....

Through challenge, respect and care... we learn

Challenge - We challenge our students to achieve their personal best in all endeavours.

A good education will have the right balance of challenge and support. Challenge to meet high expectations and support to help in areas of difficulty.

Respect - We respect ourselves, each other and our community

Respect is about behaving considerately with concern for wellbeing. At Endeavour we teach students to treat themselves and others with respect. We also teach respect for the school and broader community. We live in a diverse community and we know that what makes us the same is more important than what makes us different.

Care - Caring for each other strengthens our community

Students will learn best when they are feeling safe and happy. At Endeavour we aim to create a community. In this community we have the responsibility to behave in a way that strengthens our community. We encourage peer mentoring and leadership programs so that younger students can learn from older students. We celebrate the success of all students.

Learn -

Learning is central to everything we do: it is the foundation of our success

Learning is the most important activity for students and teachers at Endeavour and we believe that the best learning happens through challenge, respect and care.
