**Re: Application to enrol in the Targeted Sports Program at Endeavour SHS**

Dear Principal,

Endeavour Sports High School is a Year 7 to Year 12 comprehensive, coeducational, public high school. Our core business is learning but in addition to a complete range of academic courses and extra-curricular activities we offer a Targeted Sports Program.

Our selection criteria for entry into the Targeted Sports Program are designed to identify students that are not only talented in sport but able to reach their academic and social potential given the time pressures and physical demands of competing and training at an elite level.

The criteria are:

- Skill level
- Fitness level
- Potential for development in that sport
- Demonstrated commitment to school studies
- Satisfactory level of school conduct

We request the following information in order to assess the student named below against the last three criteria.

Thank you

Sue Cran (Principal)
